Statement from Missouri AFL-CIO Executive Committee Regarding Representative Bob Burns

There is simply no place in society for the vile and racist hate that is broadcasted by Bob Romanik on his radio show. Representative Bob Burns couldn't have been more wrong than to call into a show whose host spews these racist and bigoted views. The hate rhetoric on that show runs completely counter to the labor movement's goal of economic empowerment and equality. Every organization, company and elected official should not give credence to any radio station or advertisers that give these racist views a platform.

We would hope that Representative Burns moves forward in such a way to publicly renounce any further association with Romanik, his radio show or that radio station and furthermore, does what is best for his constituency.
